## Green energy is our future

With fossil fuels being depleted over the years, it is imperative to our survival that we use green energy. Fossil fuels also give off pollution, which is hurting our Earth as well as our health. In this book, you will learn all about the different green energies that are available and still being researched today. You will also learn about the rich history of the evolution of energy usage and creation. For those of you who are interested in solar power, you will be happy to know that you can read all about it in this book. It is our responsibility to think of our children's children and with green energy we can ensure that we leave the planet as beautiful as it is today.
