The Yeti: A Novel Rick Chesler, Jack Douglas

THE MOST INFAMOUS CRYPTID EVER TO CAPTURE THE IMAGINATION OF THE PLANET...
A MAN PUTTING HIS LIFE AT RISK...

When evolutionary biology professor Dr. Zack Hitchens loses his wife in a senseless accident, he decides to follow her dreams all the way to the roof of the world-- the peak of Mount Everest. On the infernal mountain, Zack and his teammates battle sickness, whiteout conditions, avalanches, the oxygen-starved minds of other climbers - and something else. Something primitive and consumed with rage. Something seeking revenge...

Something downright abominable.

PRAISE FOR THE YETI

"THE YETI will take you on an insane trek up Mount Everest, draw you into the very real past, and send you spiraling toward the horrific possibilities surrounding the mountain's mysterious deaths. The perfect combination of great research and impossible to put down writing." -- *Jeremy Robinson, international bestselling author of Apocalypse Machine and Project Nemesis*
