"HOW TO PAINT A 3-D, NIGHT-SKY, STARRED CEILING...IN UNDER ONE HOUR...FOR UNDER \$20" teaches you, in easy steps, how to create a glow-in-the-dark, three dimensional star effect on ceilings and walls. At first, this was an idea for just children's bedrooms...and they do love it. But adults love the effect too. Just imagine yourself flopping into bed after a hard day. You switch off the lights. Then you notice a few sort-of vague stars above you. As your eyes become accustomed to the darkness, it looks as if your bedroom ceiling has been lifted off. You're gazing at the most beautiful starlit sky. You are going to sleep under the stars. This little book explains how photo-luminescence works and how you can create the glow-in-the-dark star effect using inexpensive, specialist paints, and techniques not much published until now. You'll learn how to create the complete, accurate, starry Northern night sky, in addition to The Milky Way, Comets and Shooting stars. Everyone loves the glow-in-the-dark star effect which is... soothing, romantic, inspirational and educational. "They laughed when I said I had created a masterpiece...then I turned out the lights!"
