## **Jewish Women's Torah Study: Orthodox Religious Education and Modernity** Ilan Fuchs

One of the cornerstones of the religious Jewish experience in all its variations is Torah study, and this learning is considered a central criterion for leadership. *Jewish Women's Torah Study* addresses the question of women's integration in the halachic-religious system at this pivotal intersection.

The contemporary debate regarding women's Torah study first emerged in the second half of the 19<sup>th</sup> century. As women's status in general society changed, offering increased legal rights and opportunities for education, a debate on the need to change women's participation in Torah study emerged. Orthodoxy was faced with the question: which parts, if any, of modernity should be integrated into Halacha?

Exemplifying the entire array of Orthodox responses to modernity, this book is a valuable addition to the scholarship of Judaism in the modern era and will be of interest to students and scholars of Religion, Gender Studies and Jewish Studies.
