This nocturnal pocket guide presents 65 species of lemurs - some of them only just described - from eight genera: Allocebus, Avahi, Cheirogaleus, Daubentonia, Lepilemur, Microcebus, Mirza and Phaner. It has been meticulously illustrated by primate artist Stephen Nash, and concludes with a checklist to its respective lemur taxa. In addition, the new guide features a new map of Madagascar, showing key protected areas throughout the country which contain the best sites for lemur encounters.
