What is the Truth? Is the Truth obvious? Can Humanity fully comprehend the Truth? Are we in a position to claim to know the entirety of Truth? Is there a Higher Power that keeps the Universe going? Have we already discovered the exact identity of this Higher Power? Did a Higher Power reveal itself to Humanity? Did a Higher Power give us a Religion to follow? What is Morality? Is Morality absolute? How can we know if what we are doing is right? How can we know if what we are doing is wrong? Are we in a position to make absolute judgments about other people? These questions have bothered so many philosophers throughout the ages. In fact, some people went crazy just by attempting to answer these questions. In this book, I'm going to share my honest opinions regarding the issues of Truth, Morality, and Religion. I'm not a professional philosopher. I am simply an ordinary man who is willing to share to the world my honest thoughts and opinions about these philosophical issues using ordinary conversational language that can, hopefully, be easily understood by the ordinary person. In addition to the goal of sharing my honest thoughts and opinions about these issues, it is also my goal to defend my own personal beliefs against the unjust attacks against them. As Freethinkers, we have been unjustly labeled as "foolish" and "evil" by some people, and I've always felt that I really need to write a book in defense of our worldview. I dedicate this book to people who are being unjustly persecuted for their beliefs, whatever their beliefs may be.
