The 3rd Edition of the book by Dr. Yoram Avnimelech that reviewed the state-of-the-art and status of biofloc technology in aquaculture. The first two editions quickly sold out, so a corrected and expanded second edition has been published. In the preface to the third edition Dr. Avnimelech says: "In writing this book I tried to have a conversation with the reader, to communicate in a way that will help the reader understand the story of biofloc technology, simplify explanations and minimize usage of complex technical terms." Dr Avnimelech expresses his excitement with the amount of information added to the book and the technology itself. "It is exciting and inspiring to see how much information was added."
