ISO/TC 84/SC 1

## ISO 7886-3:2005, Sterile hypodermic syringes for single use - Part 3: Auto-disable syringes for fixed-dose immunization ISO/TC 84/SC 1

ISO 7886-3:2005 specifies the properties and performance of sterile single-use hypodermic syringes with or without needle, made of plastic materials and stainless steel and intended for the aspiration of vaccines or for the injection of vaccines immediately after filling. Upon delivering a fixed dose of vaccine the syringe is automatically rendered unusable. ISO 7886-3:2005 does not specify the design of the auto-disable feature, which is left to the discretion of the manufacturer. ISO 7886-3:2005 is not applicable to syringes for use with insulin (specified in ISO 8537), syringes made of glass (specified in ISO 595), syringes for use with power-driven syringe pumps (specified in ISO 7886-2), auto-disable syringes for variable dose delivery and syringes designed to be prefilled. It does not address compatibility with injection fluids/vaccines.

### **From reader reviews:**

#### **Phillip Ruiz:**

Have you spare time for just a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent all their spare time to take a stroll, shopping, or went to the actual Mall. How about open or perhaps read a book called ISO 7886-3:2005, Sterile hypodermic syringes for single use - Part 3: Auto-disable syringes for fixed-dose immunization? Maybe it is for being best activity for you. You already know beside you can spend your time together with your favorite's book, you can cleverer than before. Do you agree with the opinion or you have some other opinion?

#### **Charles Payne:**

What do you about book? It is not important along with you? Or just adding material when you need something to explain what your own problem? How about your time? Or are you busy individual? If you don't have spare time to do others business, it is make you feel bored faster. And you have extra time? What did you do? All people has many questions above. They need to answer that question since just their can do which. It said that about publication. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this ISO 7886-3:2005, Sterile hypodermic syringes for single use - Part 3: Auto-disable syringes for fixed-dose immunization to read.

#### **Martin Williams:**

Playing with family in a park, coming to see the marine world or hanging out with pals is thing that usually you could have done when you have spare time, after that why you don't try point that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love ISO 7886-3:2005, Sterile hypodermic syringes for single use - Part 3: Auto-disable syringes for fixed-dose immunization, you can enjoy both. It is good combination right, you still desire to miss it? What kind of hang type is it? Oh come on its mind hangout people. What? Still don't have it, oh come on its known as reading friends.

#### **Daryl Radford:**

Does one one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Make an effort to pick one book that you find out the inside because don't determine book by its protect may doesn't work here is difficult job because you are scared that the inside maybe not seeing that fantastic as in the outside search likes. Maybe you answer may be ISO 7886-3:2005, Sterile hypodermic syringes for single use - Part 3: Auto-disable syringes for fixed-dose immunization why because the excellent cover that make you consider about the content will not disappooint an individual. The inside or content is actually fantastic as the outside or maybe cover. Your reading sixth sense will directly make suggestions to pick up this book.
