Strife appears endemic to the Balkans. A crossroads of three continents, the area has provided the site for often violent convergence of three of the world's major religions and several major races and a swirl of human activity. This volume explores the battles that have taken place in the region. Beginning with Turkey, the author describes the battles and examines the small arms, artillery, armoured vehicles, warships and warplanes used. Accompanying each weapons illustration throughout the book is a set of specifications providing the tactical abilities of the weapon in the field.
