Inside the Flying Saucers Mr. George Adamski

What has happened to George Adamski since he wrote the famous incidents in *Flying Saucers Have Landed*? Since the memorable November 20, 1952, when he first made personal contact with a man from another world? Since December 13, 1952 when he was able to make photographs within 100 feet of the same saucer that had brought his original visitor? *Inside The Space Ships* is Adamski's own story of what has happened to him since then. It begins with his first meeting, a few months later, with a second man from another world — his first meeting with one who speaks to him. This second visitor brings him to a Venusian Scout (flying saucer) and this, in turn, brings him to a mother ship. Later he is conveyed in both a Saturnian Scout and a Saturnian mother ship. Adamski tells us what transpires in these space craft and what the men and women from other worlds have told him. Adamski's photographs of flying saucers, originally published in *Flying Saucers Have Landed*, have since become world-famous as other witnesses in other parts of the world have succeeded in taking photographs identical with his. Now, however, in *Inside The Space Ships*, Adamski gives us 16 photographs and illustrations, no longer of Scouts (flying saucers) mostly, but of the great space ships from which they are launched. The main group of these photographs was taken in April, 1955, and neither the photographs nor a description of them has ever been published before.
