From the parent's point of view:

I have very little time. I'm torn. I have so many things to do, but I want to help my child learn. What's the answer? I'm lost, and it's so hard to watch my child struggle.

From the child's point of view:

Hey, I'm a kid. I want to get better grades, but I just don't understand this stuff. Everybody else gets it except me. If I could do my homework, then my mom and dad would be proud of me, but school is so hard. I try. Really, I do!

From my point of view: I'm a private tutor.

I can show you how to apply the practical techniques I've developed over four decades of working with students like your child. I can show you how to more effectively use the time you can spend to help your child with school work.
