## Cracking the LSAT with CD-ROM, 2001 Edition (Cracking the Lsat Premium Edition With Practice Tests) Adam Robinson, Rob Tallia

The Princeton Review doesn't try to teach you everything there is to know about reading comprehension or analytic thinking. They just tell you what you need to know to score higher on the LSAT. *There's a big difference.* In **Cracking the LSAT**, The Princeton Review will teach you how to think like the test makers.

This is accomplished by teaching you how to:

- Eliminate answer choices that look right but are planted to fool you
- Crack complex argument problems by zeroing in on the conclusion
- Use powerful methods of diagramming to solve games problems
- Ace the reading comprehension section by "mapping out" the passages
- Improve your writing sample by knowing what they're really looking for

\*This book and CD-ROM package includes 6 full-length simulated LSAT exams: 2 in the book and 4 on CD-ROM. Plus, it will show you how to go online and take an additional exam with instant analysis. The questions in these tests are exactly like the ones you'll see on the actual LSAT, and every solution is fully explained.

*Contents include:*

### General Information and Strategies

Arguments

Games

Reading Comprehension

The Writing Sample

Putting It All Together

Law School Admissions
