Crop Protection Chemicals Reference The Chemical and Pharmaceutical Press

Over 2000 pages of data on key farm chemicals licensed for use in the United States. It also presents useful information for every type of crop pest and legally authorized label information for every type of crop. The number of colour-coded and fully cross-referenced indexes has been increased to seven for this edition. They list crop chemicals by manufacturer, brand name, common and chemical name, product category, crop and non-crop use, pest use, and DOT information by brand name. The Safety Section, provided by the National Agricultural Chemicals Association, has been revised and updated as has the Table of Special Storage Requirements for each product. This edition includes a special bound-in supplement containing late-breaking information. The supplement will include full-text labels for new products; information on new crop and pest registrations and any other important changes for existing products; and indexing for these new products and registrations.
