Hunter is the ultimate tracker, the world's best. If you're lost, Hunter can find you - whether you want him to or not. But he doesn't want to be involved in every search, particularly if it's the military asking and they are searching for a beast that no one's ever seen. But when Hunter learns that this creature has rampaged through a secret research facility, in the process wiping out an elite military guard, he reluctantly agrees to help. What he finds in the Arctic is a beast that is a half-human abomination, the result of outlaw genetic experiments that have given it a taste for human blood and that may have made it immortal.
