Classical and Quantum Cosmology (Graduate Texts in Physics)

Gianluca Calcagni

Classical and Quantum Cosmology (Graduate Texts in Physics) Gianluca Calcagni

This comprehensive textbook is devoted to classical and quantum cosmology, with particular emphasis on modern approaches to quantum gravity and string theory and on their observational imprint. It covers major challenges in theoretical physics such as the big bang and the cosmological constant problem. An extensive review of standard cosmology, the cosmic microwave background, inflation and dark energy sets the scene for the phenomenological application of all the main quantum-gravity and string-theory models of cosmology.

Born of the author's teaching experience and commitment to bridging the gap between cosmologists and theoreticians working beyond the established laws of particle physics and general relativity, this is a unique text where quantum-gravity approaches and string theory are treated on an equal footing. As well as introducing cosmology to undergraduate and graduate students with its pedagogical presentation and the help of 45 solved exercises, this book, which includes an ambitious bibliography of about 3500 items, will serve as a valuable reference for lecturers and researchers.

From reader reviews:

Mary Davis:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent their very own spare time to take a walk, shopping, or went to the Mall. How about open or perhaps read a book called Classical and Quantum Cosmology (Graduate Texts in Physics)? Maybe it is to be best activity for you. You recognize beside you can spend your time with the favorite's book, you can smarter than before. Do you agree with it has the opinion or you have additional opinion?

Ann Gonzalez:

The actual book Classical and Quantum Cosmology (Graduate Texts in Physics) will bring you to definitely the new experience of reading any book. The author style to spell out the idea is very unique. Should you try to find new book to read, this book very ideal to you. The book Classical and Quantum Cosmology (Graduate Texts in Physics) is much recommended to you to see. You can also get the e-book through the official web site, so you can easier to read the book.

Charles Wagoner:

Playing with family inside a park, coming to see the ocean world or hanging out with close friends is thing that usually you will have done when you have spare time, and then why you don't try point that really opposite from that. 1 activity that make you not sense tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Classical and Quantum Cosmology (Graduate Texts in Physics), you may enjoy both. It is very good combination right, you still desire to miss it? What kind of hangout type is it? Oh seriously its mind hangout folks. What? Still don't obtain it, oh come on its referred to as reading friends.

Regina Hash:

Do you like reading a book? Confuse to looking for your favorite book? Or your book had been rare? Why so many concern for the book? But just about any people feel that they enjoy to get reading. Some people likes examining, not only science book but novel and Classical and Quantum Cosmology (Graduate Texts in Physics) as well as others sources were given information for you. After you know how the truly great a book, you feel need to read more and more. Science reserve was created for teacher or maybe students especially. Those publications are helping them to put their knowledge. In other case, beside science e-book, any other book likes Classical and Quantum Cosmology (Graduate Texts in Physics) to make your spare time considerably more colorful. Many types of book like this.
