## **Green Grows the City** Beverley Nichols

Anyone who has ever created a garden knows that it is a process replete with drama: there's the feverish excitement of drawing up plans and making lists of plants; the bleak depression of realizing that the plans will have to be altered; the "Eureka!" moment when a brilliant solution presents itself; the grim frustration of dealing with meddlesome neighbors and recalcitrant plants. For Beverley Nichols (1898-1983), making a new garden in a London suburb in the years just before World War II was positively operatic in its emotional trajectory. Fans of Beverley Nichols will find in *Green Grows the City* the same elements that have delighted them in his other books: the wit, the style, the cats, and of course Gaskin, gentleman's gentleman extraordinaire. Those new to Nichols are in for a rare treat.
