**Hands-On Herpetology: Exploring Ecology and Conservation - PB163X** Rebecca L. Schneider, Marianne E. Krasny, Stephen J. Morreale

Plentiful, diverse, and readily available, these animals, known in science as "herps", are also perfect for teaching students about biology, ecology, and conservations, including problems affecting both amphibians and reptiles.

This highly readable resource melds rigorous science content with science research. Its five sections cover the animals' biology and handling procedures (including safety tips), provide background information for teachers, offer twenty-one indoor/outdoor activities, and broach critical conservations issues.
