After five hundred years of oppression, the Seventh World is beginning to wake to the realities of the unseen world behind their own. The rise of the Gifted, young men and women with uncommon abilities, portends the coming of the King of ancient days-but evil is also waking.

Aware that their control is beginning to slip, the Order of the Spider sets out to convert the Gifted or destroy them. Among those caught in the conflict are Nicolas Fisher, a young Gypsy running from the past, and Maggie Sheffield, driven underground in the city of Pravik.

Others also stand against the Blackness: the young chieftain Michael O'Roarke, the mysterious healer called Miracle, and the indomitable rebels of Pravik. Together, they will unearth a terrible plot and stand against the greatest evil their world has ever known.

As the world takes sides, their lives will play an integral role-in the coming of light, or the triumph of darkness. Burning Light is the second book in The Seventh World Trilogy.
