Dress in Eighteenth-Century Europe 1715-1789 (Revised Edition) Aileen Ribeiro

A survey of the clothing worn by the middle and upper classes throughout Europe in the 18th century, and a discussion of what this meant in terms of social definition and identity. Aileen Ribeiro, a historian of dress, also looks at such subjects as developments in retailing and distribution, etiquette, the rise of the dress designer and couturier, the evolution of ready-made clothes, fancy dress, and the masquerade. This revised edition takes the text and bibliographic material in the previous volume and adds many new illustrations in colour.
