This humorous book follows the earlier successful publication of two similar books by Dr Jack. Picture driven, it features a collection of cartoons that lampoon birds on the basis of their common names. The author draws on some existing material, but also turns to the renaming of a number of southern African birds for fresh inspiration. The book is targeted specifically at South African twitchers, as well as more relaxed bird watchers and nature lovers in general – the perfect affordable gift for the birder who already has everything else.
