Many Meetings: A Nature's Curiosities Coloring Collection (Color Pics By Lis) (Volume 1) Lisa Marie Ford

Color through all the seasons in this wildlife coloring book by Lisa Marie Ford.

This coloring book features 24 images of Nature's Curiosities in their element. There are owls, beavers, cardinals, deer, butterflies, mice, hummingbirds, bees, kestrels, bunnies, chipmunks, flowers, fungus, trees, and more waiting to be brought to life with color!

There are so many colors in Nature, and when looked at closely more details are revealed. Color these naturally or let the imagination run wild. Every pencil or crayon can have a chance to color in this book.

This book includes TWO sets of **24 different illustrations, for a total of 48 pages to color in...** plus a few extras here and there. Two sets offers chances to color an image as a sunset scene one time and midday another, try again after a mishap, or share with a friend.

Book/Page size is 8.5 x 11 inches (about 21.59 x 27.94 cm).

Images are on one side only for easy removal to color and display, with the image title on the back of the page.

Some pictures are framed within the page, others are centered without a frame, so that images do not go to the edge of the paper.

There are two color testing pages included (one per collection) for trying out a color for the first time or blending multiple colors before putting them in a picture.

These designs range from simple to detailed, with thin to thick lines, and make a nice variety for the whole family.

Nature and wildlife coloring for "kids" of all ages.
