Rhett C. Smith Ph.D., Harold M. Ickes II M.D.

Organic Chemistry 2 Practice Problem and Spectroscopy Book 2017 Rhett C. Smith Ph.D., Harold M. Ickes II M.D.

This book provides practice problems for each of the units that are generally covered in a second semester organic chemistry course, as well as three Progress Checks, which are multiple choice questions that simulate the type of questions you will face in many standardized exams. Most importantly, there are about SEVENTY PAGES of *extremely detailed explanations* of the necessary knowledge and reasoning behind how one can arrive at the correct answer for all of the multiple choice questions. The very detailed solutions make this book an ideal source for improving your understanding and for doing well on tests such as: the standardized final exam offered at many schools, medical school exams, pharmacy school exams, etc. There is also a 100+ page section of introductory spectrometry/spectroscopy practice problems (mass spectrometry, infrared spectroscopy and proton nuclear magnetic resonance spectrometry) with answers and peak assignments provided. The book also has free-response questions with answers not included so they can be assigned by instructors.
