## **DEATH: Tokee IX** Mr. Lenny Francis

Our book here consists of a very controversial look at the origins and negative effects of 'N word'-centered politically correct America, with much of that stemming from the influences of our Bible, that's right, the Bible. I view these phenomena as forms of "death," along of course with the expiration of life in real death itself. In this November 2015 revision, certain texts, sometimes consisting of only a line or two, were reinserted from the original manuscript, things I left out because it was initially thought unduly vulgar or harsh or because it didn't fit contextually enough on the page, or whatever. And if a couple typos may have slipped through during that process, OH WELL. That is to say I don't give a crap. 'Cause I know I did all I could for this book, and then some with this latest revision. And I ain'ts a-goin' any further with it. This is where I get off. Understand this is a book of adult language and content not intended for under-aged or easily offended readers. Don't wanna be offending anybody or anything like that, or not those who can't handle it for this or for any other reason. - author 29 November 2015
