Developing a Social Psychology of Monkeys and Apes John Chadwick-Jones

The aim of this text is to draw attention to the exciting progress of contemporary studies of the social psychology of monkeys and apes. It is written with a clear style which should invite interest from a wide range of social scientists. The relatedness of humans and non-human primates that is usually considered in its genetic forms is followed through into the complex social tactics of monkeys and apes. The focus of the book is on the latest research as it has developed out of earlier classic studies. The current wave of researchers working on social topics is especially emphasised. This book will be of particular interest to primatologists, ethologists, anthropologists, zoologists, social psychologists, and students of social cognition and social interaction. For students, the appendices provide useful information on the variety of social structures of Old World and New World monkeys and apes.
