**The NeuroICU Book, Second Edition** Kiwon Lee

**A practical, protocol-based guide to the emerging field of neurocritical care – updated with the very latest research and developments**

The goal of neurological critical care is to rapidly deliver acute medical therapies and appropriate interventions through effective monitoring of both neurological and end organ function. *The NeuroICU Book* puts that goal within the reach of every neurologist and critical care specialist.

Thoroughly updated to keep pace with all the advances in this emerging field, the Second Edition combines the latest clinical perspectives in critical care medicine, neurology, and neurosurgery. This comprehensive, evidence-based text standardizes neurocritical care and takes readers through the rationale for those standards. Filled with detailed case studies and featuring a question-and-answer format, the book not only builds competency in recognizing acute changes in neurological function, but also addresses all organ insufficiencies and failures, reflecting the real-life challenges in the modern neuro-ICU.

- Robust, wide-ranging scope goes beyond classic neurology to encompass other organ failures at the time of presentation or during the ICU stay
- Evidence-based approach leverages the scientific and controlled research that supports the key treatment methods outlined in the book
- Practical tools including algorithms, tables, illustration, photographs, detailed references, and critical take-home points

### **From reader reviews:**

#### **Dorothy Marsh:**

What do you think about book? It is just for students because they are still students or this for all people in the world, the actual best subject for that? Simply you can be answered for that problem above. Every person has diverse personality and hobby per other. Don't to be obligated someone or something that they don't need do that. You must know how great as well as important the book The NeuroICU Book, Second Edition. All type of book would you see on many sources. You can look for the internet options or other social media.

#### **Nelson Gendron:**

Your reading 6th sense will not betray an individual, why because this The NeuroICU Book, Second Edition reserve written by well-known writer whose to say well how to make book which can be understand by anyone who else read the book. Written in good manner for you, still dripping wet every ideas and producing skill only for eliminate your personal hunger then you still doubt The NeuroICU Book, Second Edition as good book but not only by the cover but also through the content. This is one guide that can break don't assess book by its include, so do you still needing one more sixth sense to pick this kind of!? Oh come on your looking at sixth sense already alerted you so why you have to listening to yet another sixth sense.

#### **Alma Driver:**

Are you kind of occupied person, only have 10 or maybe 15 minute in your time to upgrading your mind talent or thinking skill even analytical thinking? Then you have problem with the book in comparison with can satisfy your limited time to read it because all this time you only find e-book that need more time to be read. The NeuroICU Book, Second Edition can be your answer because it can be read by a person who have those short spare time problems.

#### **Sheila Kilburn:**

As a college student exactly feel bored in order to reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's internal or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that reading is not important, boring and can't see colorful images on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this The NeuroICU Book, Second Edition can make you sense more interested to read.
